

## COUGHS AND COLDS ARE COMMON IN NOVEMBER

### PE-RU-NA

FOR CATARRH OF THE HEAD, THROAT, LUNGS, STOMACH, KIDNEYS, BLADDER AND PELVIC ORGANS

Wouldn't Fit.

Some visitors from the north attended service at a colored church in Alabama and were much amused when the good old preacher referred to John I. and John II. as "John with one eye and John with two eyes."

But when he gave out a hymn beginning "Purge Me with Hyssop," there was consternation in the choir and great fumbling around for a tune to fit the words. At last the leading chorister addressed the preacher: "Say, brother Johnning, won't you please try some odder yard?"—Lippincott's.

**Herd of New York's Poor.**

Paul D. Gray, chairman of the tenement-house committee of the Charity Organization Society, declares that a close census shows that there are in New York tenements 357,000 rooms that have no windows.

Few things are impracticable in themselves, and it is for want of application, rather than of means, that men fail of success.—Rochefort.

### HOW DEBILITY SHOWS

And Why Dr. Williams' Pink Pills Are a Specific for Dangerous Physical Declines.

The symptoms of general debility vary according to the cause, but weakness is always present, a tendency to perspire and fatigue easily, ringing in the ears, sometimes black spots passing before the eyes, weak back, vertigo, wakefulness caused by inability to sleep thinking, and unrefreshing sleep. The cause of the trouble may be some drain on the system or it may be mental or physical overwork, sometimes insufficient nutrition due to digestive disturbance. In the latter case there is generally a loss of appetite and a coated tongue as well as general languor and debility.

Miss Lulu M. Metzger, a stenographer, living at 71 Mill street, Watertown, N. Y., suffered for over a year from general debility. "It was caused by overstudy," she says, "and I had no ambition, didn't want to go anywhere, my food didn't taste good, I was run down, listless and listless. I took medicines but they failed to help me. Finally friends recommended Dr. Williams' Pink Pills to my mother and she got some for me. I took them for some time and was entirely cured and have had no return of the trouble."

Dr. Williams' Pink Pills cure debility because they actually make new, red, rich blood, and as the blood carries nourishment to all the organs and tissues of the body, nerves as well as muscles, the new blood stimulates the organs to do the work that nature expects of them and normal health follows. Not only is this treatment sufficient to cure debility but many severe nervous disorders as well.

The pills are sold by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box, six boxes \$3.00, by the Dr. Williams' Medicine Co., Schenectady, N. Y. Send for free diet book.

### READERS

of this paper desiring to be advertised in its columns should insist upon having what they wish for, refusing all substitutes or imitations.

### High Grade Farming Lands

FOR SALE IN OSCEOLA COUNTY

Cultured hardwood lands. Roll a clear gravelly loam. Just put on the market in a well selected country. Good roads, schools, railroads and telephone. Write for maps and literature.

H. W. MARSH, - Manistee, Mich.

## THE DAIRY

### BARN FOR SMALL DAIRY FARM.

One Which Will Accommodate Ten to Twelve Cows.

The farm barn here shown is intended to accommodate ten or twelve dairy cows together with the horses necessary for a moderate sized farm in size it is 44 feet long by 34 feet wide.

Barn and Ground Plan.

The main floor is 12 feet wide and the height of posts 18 feet, permitting loads of hay to be driven in. A basement about six feet in depth can be utilized to store the manure and to provide shelter for hogs. The frame can be made of eight inch square hemlock timbers, the floor of three inch planks. This style of building should be suitable for many parts where the number of live stock is limited.

### THE CALF.

Most Rigid Selection Should Be Made in Adding to Herd.

The most rigid selection, according to dairy standards, should be made among the calves as they come into profit, those being retained which will raise the average performance of the herd. When it is necessary to introduce a new sire, he should be of the same type and personal qualities already determined upon as the ideal for the herd. Constant records should be kept of the work of every individual animal, in order that a reasonable treatment may insure the greatest profit, and this is only possible when the owner is personally familiar with the characteristics and performance of every cow.

Personal comfort, cleanliness, light, air, exercise and water, are as necessary as food. Frequent examinations should be made by a competent inspector to make sure of the health of the herd, and any animals found suffering from infectious or contagious diseases should be immediately removed to hospital stalls for proper care. With such reasonable treatment a pure bred herd will prove itself the best investment that the intelligent farmer can make, and will be a source of constant satisfaction and pride.

### TO HOLD A GATE OPEN.

Brace Which Can Be Swung Out of the Way When Not in Use.

The illustration shows a very handy method which I invented to hold a swing gate open at any width, within a corresponding of Orange Judd Farm. Most gates are hung so they swing upward a little in opening, to clear snow, grass, etc. They swing shut of their own accord, hence something to hold the gate open at any place while driving through or letting out stock is a necessity.

To meet this need I devised the brace shown herewith. It is simply a piece of wood 1x2 inches and a little longer than half the height of the gate. One end is fastened by a spike passed through it and driven into the edge of the vertical board at the end of the gate, or it may be put on with a hinge. The dotted lines show its position when not in use, it being swung upward and snapped beneath a spring nailed to the top of the gate.

### Dairy Facts.

Don't overdo the milking tube act. The hand-separator business has steadily increased during the past ten years.

It is impossible for a cow to be two opposite things, a dairy cow of the highest type and a beef animal of the greatest possible value.

The control of moisture in butter is not possible without the control of churning temperatures. Ice and thermometers are necessary for the making of butter under proper conditions.

The New South Wales Farmer and Settler tells of a New Zealand farmer who holds the record as a milker. For a considerable time he and his wife milked 72 cows night and morning, without keeping any hired help, their family consisting of one small child. We are told that the farmer and his wife were healthy and robust—which they need be—and fine specimens of humanity.

### RUNNING SORES ON LIMBS.

Little Girl's Obstinate Case of Eczema.—Mother Says: "Cuticura Remedies a Household Standby."

"Last year, after having my little girl treated by a very prominent physician, for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble. We find that the Cuticura Remedies are a valuable household standby, living as we do, twelve miles from a doctor, and where it costs from twenty to twenty-five dollars to come up on the mountain. Mrs. Lizzie Vincent Thomas, Fairmont, Walker's Ridge, Tenn., Oct. 13, 1905."

### Each to His Own Trade.

A story is told of a Scotch minister who gave the rural joiner an order to make a small wooden cupboard.

When the pastor received the account he complained to the joiner about the amount, and said he could have got a second hand cupboard, which would have answered his purpose equally well, at much less cost.

"Yes," rejoined the joiner, "and I could buy a gold sermon for three-pence; but I've wadin' care about preachin' them at that price!"—Stray Stories.

### A PUBLIC DUTY.

Montpelier, O., Man Feels Compelled to Tell His Experience.

Joseph Wilcox, Montpelier, O., says: "I feel it my duty to tell others about Dean's Kidney Pills. Exposure and driving brought kidney trouble on me, and I suffered much from irregular passages of the kidney secretions. Sometimes there was retention and at other times passages were too frequent, especially at night. There was pain and discoloration. Dean's Kidney Pills brought me relief from the first, and soon infused new life. I give them my endorsement."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

### MONKEY PLAYED MANY PARTS.

Defined by Customs Men as a Bird, a Handbag and a Dog.

On the travels of a monkey from Genoa to Heidelberg an amusing farce might be written. A German gentleman brought from southwest Africa a tiny monkey weighing barely a couple of pounds. From Tanga to Genoa all went well with the Lilliputian animal. It was a favorite with everyone, and traveled free until Genoa was reached, when its troubles began.

Brought under the notice of the Genoese customhouse authorities, it was promptly deprived of its identity. It was no longer an animal; it became a bird, and as a bird, on which 28 cents was charged, it was conveyed to the Swiss frontier, where, at a stroke of the customhouse officer's wand it was transformed into a cat at the increased assessment of \$1.55, and borne by train to Zurich.

On its arrival there it ceased, as a cat, to exist, and became a mere package—an item of luggage that was conveyed to Constance for the nominal sum of 16 cents.

Still as luggage, though metamorphosed from a package into a handbag, it went on its way to Stuttgart, where a great honor awaited it. It was, on payment of \$2.04, exalted into a dog, and it was as a dog that it ended its journey at the university town of Heidelberg.—Stray Stories.

### IT'S THE FOOD.

The True Way to Correct Nervous Troubles.

Nervous troubles are more often caused by improper food and indigestion than most people imagine. Even doctors sometimes overlook this fact. A man says:

"Until two years ago waffles and butter with meat and gravy were the main features of my breakfast. Finally dyspepsia came on and I found myself in a bad condition, worse in the morning than any other time. I would have a full, sick feeling in my stomach, with pains in my heart, sides and head.

"At times I would have no appetite for days, then I would feel ravenous, never satisfied when I did eat and so nervous I felt like shrieking at the top of my voice. I lost flesh badly and hardly knew which way to turn until one day I bought a box of Grape-Nuts food to see if I could eat that. I tried it without telling the doctor, and liked it fine; made me feel as if I had something to eat that was satisfying and still I didn't have that heaviness that I had felt after eating any other food.

"I hadn't drank any coffee then in five weeks. I kept on with the Grape-Nuts and in a month and a half I had gained 15 pounds, could eat almost anything I wanted, didn't feel badly after eating and my nervousness was all gone. It's a pleasure to be well again."

Name given by Postum Co., Battle Creek, Mich. Read the book, "The Road to Wellville," in pkgs. "There's a reason."

Brief is the agony of an instant; the indulgence of grief, the blunder of a life.—Heaconsfield.

Defiance Starch—Sixteen ounces for ten cents, all other brands contain only 12 ounces for same money.

Every man has an excuse for drinking—and each is worse than the other.

Give Defiance Starch a fair trial—try it for both hot and cold starching, and if you don't think you do better work, in less time and at smaller cost, return it and your grocer will give you back your money.

### Income From Abroad.

The London Economist states that British capitalists draw an income of \$509,000,000 from their foreign investments. Last fiscal year they paid income tax on \$330,300,000, as compared with \$195,100,000 20 years ago. The largest amount is derived from interest on foreign and colonial government securities and the next largest sum from dividends and interest from foreign and colonial concerns.

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

### First Flower of Spring.

In the northern United States the snowdrop is the only garden flower that we can count on year after year as the earliest sign of spring. Its pendulous white blossoms, with "heart-shaped seal of green" sung by Rossetti often appear before the last snow has gone.

Luckily, even city families need not be without snowdrops, for they have been known to thrive in narrow passageways between all houses. Most bulbous plants like the baking hot sun of midsummer in order to ripen their bulbs, but the snowdrop thrives best in partial shade.

It blooms earlier if it has a chance at the March sun, but is one of the very few that will flower regularly, though less freely, in dense shade and with a northern exposure.—Country Life in America.

### Marion Harland.

The celebrated authoress, so highly esteemed by the women of America, says on pages 103 and 445 of her book, "Eve's Daughters; or, Common Sense for Maid, Wife and Mother":

"For the aching back—should it be slow in recovering its normal strength—an Allcock's Plaster is an excellent comforter, combining the sensation of the sustained pressure of a strong warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of uneasiness for several days—in obstinate cases, for perhaps a fortnight."

"For pain in the back wear an Allcock's Plaster constantly, renewing as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the aching incessant."

### Mysterious Find.

She went down to a well play the other evening, attired in a superb white gown and wearing a splendid opera cloak. In fact, she was stunning. As she seated herself, she was about to remove the long red cloak when with horror and consternation depicted on her face she discovered something! My, what a predicament! She had prepared supper before leaving for the show, and there, covering the front of the white skirt was a lowly red cloak checked apron. She managed to remove it after the house had darkened, and the next morning the sweeper at the Colonial found an apron under one of the seats.—Pittsfield Journal.

Don't be forecasting evil unless it is what you can guard against. Anxiety is good for nothing if we can't turn it into a defense.—Meyrick.

THE CASTORIA COMPANY, 27 N. MURRAY STREET, NEW YORK CITY.

### Parisian Meat Supply.

The last year for which complete statistics concerning the meat supply of Paris have been published is 1903. From the reports of that year it appears that 267,027 cattle, 274,390 calves and 2,047,770 sheep were slaughtered at the city abattoirs and produced 156,007,850 kilograms (or 327,616,485 pounds) of meat, of which 123,712,180 kilograms (259,795,578 pounds) were consumed in Paris, and 32,295,650 kilograms exported. Some of the choicest of French beef goes to England, where the fillets and other prime cuts are in demand for clubs, hotels, and the best class of restaurants. During the same year there were killed 282,508 hogs, which yielded 27,657,350 kilograms (58,080,435 pounds) of pork, and 29,370 horses, which furnished 7,305,650 kilograms (or 15,341,865 pounds) of meat, all of which was consumed in Paris.

### STAND FIRM

When you buy an OILED SUIT OR SLICKER demand TOWER'S FISH BRAND. It's the easiest and only way to get the best. Sold everywhere.

### A Positive CURE

Ely's Cream Balm is quickly absorbed. Gives Relief at Once.
